Interests

Mentoring Group with Jonathan Verrecchia

Jonathan Verrecchia is a wonderful mentor who has begun a Discord where we can ask questions and talk about our interests in general.

Psychology

I like learning about psychology, I believe that it is very useful to research and understand how to solve interpersonal problems, informing ourselves about patterns in human behaviour.

Art and Illustration

I studied art and illustration, and they continue to be very important to me.

Blockchain for ethical practices

Though I would not consider myself to be particularly interested in cryptocurrencies, I believe that there is an exciting future ahead in which blockchain may help ensure we are buying ethically. Companies such as Segafredo are very interesting.

Languages

I love learning about languages, as it helps me to have a more diverse perspective of the world.
